

**SPRING/Bangladesh**'s goal is to improve the nutritional status of pregnant and lactating women and children under two years of age

**SPRING/Bangladesh** works in **40** sub-districts of **Khulna** and **Barisal** divisions

The **Farmer Nutrition School** is a community forum that teaches and mentors household members to improve the production and consumption of high-quality diets rich in micronutrients

**6,421** farmer nutrition schools have been established between FY12 and FY16

**126,255** pregnant and lactating women have benefited from farmer nutrition schools

**Community Nutrition Champions** are farmer nutrition school graduates elected to voluntarily spread messages about nutrition and hygiene in their communities

**Tippy taps** are simple, water-saving handwashing stations that increase the availability of clean water for handwashing at significant points around the household

**SPRING/Bangladesh** helps develop the capacity of agricultural and health workers to provide quality nutrition counseling through training and supportive supervision
