

**Agriculture and Nutrition Global Learning and Evidence Exchange (AgN-GLEE)  
Strengthened and Sustainable Linkages among Agriculture, Economic Growth, and Nutrition**

Hamilton Crowne Plaza, Washington, DC

June 18, 2013

**AGENDA**

8:00 – 8:30	Workshop Registration	
8:30 – 9:00	<p><b>1.1 Welcome and Feed the Future Status Update</b></p> <p><i><b>Session Objective:</b> Participants will be brought up to date on the role of nutrition in Feed the Future, including partnership with Global Health and the Office of Food for Peace; grounding in the results framework; highlights from the Feed the Future Progress Report; next steps as reflected in recent G8 “Nutrition for Growth” and 1000 days events; and, a brief explanation of three Ag-N GLEE processes and objectives.</i></p>	<p><i><b>Susan Bradley</b>, USAID/BFS and <b>Anne Peniston</b>, USAID/GH</i></p>
9:00 – 9:30	<p><b>1.2 Background and Objectives of Workshop</b></p> <p><i><b>Session Objective:</b> Participants will be made aware of the purpose and key outputs/outcomes of the three regional AgN-GLEE workshops. A review of the day’s agenda will highlight the objectives of the one-day AgN-GLEE:</i></p> <ul style="list-style-type: none"> <li><i>• To share concepts and organizing principles underlying efforts to obtain measurable improvements in nutrition from Feed the Future investments and,</i></li> <li><i>• To share and elicit questions and conversation regarding the outputs and outcomes of the regional AgN-GLEE workshops with a focus on collaboration in future planning and implementation.</i></li> </ul>	<p><i><b>Heather Danton</b>, SPRING</i></p>
9:30 – 10:30	<p><b>1.3 Agriculture and Nutrition Working Together to Improve Nutritional Outcomes: The Global Landscape</b></p> <p><i><b>Session Objective:</b> Participants will be introduced to current literature and evidence regarding the role of agriculture in supporting reductions in malnutrition.</i></p>	<p><i><b>Marie Ruel</b>, IFPRI</i></p>

10:30 – 11:00 Break		
11:00 – 12:15	<p><b>1.4 Primary Principles and Pathways for Reaching Nutrition through Agriculture</b></p> <p><i>Session Objective:</i> Participants will understand a conceptual framework of the linkages between agriculture and nutrition that guided the development of the AgN-GLEE Landscape Analyses. This session also introduces core principles for improving nutrition through agriculture, identified through an extensive review and stakeholder consultation.</p>	<b>Anna Herforth</b> , Consultant
12:15 – 1:15 Lunch		
1:15 – 2:30	<p><b>1.5 Key Indicators for Monitoring and Measuring Agriculture’s Contribution to Nutrition</b></p> <p><i>Session Objective:</i> Participants will understand the linkages between the Feed the Future Results Framework and the Agriculture-Nutrition Pathways. The session will present Feed the Future/Malawi’s Integrated Nutrition and Value Chain (INVC) project’s approach to performance monitoring and learning. INVC’s performance indicators and data collection processes will serve as an example of monitoring steps along the pathway to improve access to diverse and quality foods and will illustrate synergy of value chain and nutrition activities. The session will clarify what indicators and outcomes can be measured at a project level vs. the Feed the Future Zone of Influence level.</p>	<b>Anne Swindale</b> , USAID/BFS
2:30 – 3:00 Break		
3:00 – 4:00	<p><b>1.6 Findings of the AgN-GLEE Landscape Analysis</b></p> <p><i>Session Objective:</i> Participants will learn the scope, methods, and global findings from current Feed the Future programs across 19 focus countries in Africa, Latin America and the Caribbean, and Asia. The presentation will also discuss several important observations about the agriculture and nutrition linkages in Feed the Future programs and present a list of recommendations for increasing the nutrition impact of Feed the Future investments in agriculture.</p>	<b>Lidan Du</b> , SPRING
4:00 – 5:00	<p><b>1.7 Developing a Common Learning Agenda</b></p> <p><i>Session Objective:</i> Participants will develop ideas, topics, and issues that warrant additional investigation and/or learning related to obtaining nutritional outcomes from investments in agricultural development and economic growth. Participants will also be encouraged to join the AgN-GLEE Community of Practice hosted by SPRING on Agrilinks to promote continued learning.</p>	<b>Heather Danton</b> , SPRING
5:00	<b>Thanks and Adjourn</b>	<b>Christian Winger</b> , SPRING
