The logo for the 'Final Jeopardy!' round of the game show Jeopardy!. It features the word 'FINAL' in large, red, 3D block letters with a blue and green gradient shadow, set within a yellow-outlined inverted triangle. Below this, the word 'JEOPARDY!' is written in white, bold, sans-serif capital letters with a blue drop shadow, centered within a blue rectangular box. This box is also framed by a yellow-outlined inverted triangle pointing downwards. The entire graphic is centered on a solid blue background.

FINAL
JEOPARDY!

Worldwide, deficiency of THIS
micronutrient is the most
common cause of anemia

What is Iron?

Plasmodium causes THIS disease
that causes anemia

What is Malaria?

THIS micronutrient, useful for
good vision, also helps reduce
anemia

What is Vitamin A?

The occurrence of THIS results in adolescent girls being at higher risk of anemia than boys

What is Menstruation?

A child whose mother was anemic during pregnancy may have THIS morbidity, which is determined by a cutoff of 2.5

What is Low Birth Weight?

Hemoglobin in blood is used to
carry THIS element that helps
cells “breathe”

What is Oxygen?

THIS vitamin found in citrus
fruits can increase the absorption
of iron from the intestine

What is Vitamin C?

DAILY DOUBLE

DAILY DOUBLE

Inflammation increases levels of
THIS hormone produced by the
liver

What is Hepcidin?

THIS vitamin, given with iron in
IFA pills, helps in both blood and
brain function

What is Folate/ Folic acid?

Environmental enteric
dysfunction affects THIS part of
the body

What is Intestine/ Small intestine?

Mothers are encouraged to
practice THIS for 6 months for
better health of the baby

What is Exclusive Breastfeeding?

When giving Iron-Folic acid in pregnancy, we tell mothers to avoid THIS beverage as it can decrease iron absorption

What is Tea / Coffee?

Optimal birth spacing of at least
THIS many years allows for a
mother to build iron stores for the
next pregnancy

What is 2 years?

Intake of THIS form of iron
which is found in meat, poultry,
and fish (animal source foods) is
encouraged in women and
children as it is well absorbed by
the body

What is Heme iron?

According to the WHO, anemia
over THIS percent is a severe
public health problem

What is 40?

You can use THIS as a
micronutrient supplement by
“sprinkling” it on a child’s
porridge or food

What is Micronutrient Powder (MNP) / Sprinkles?

Drugs such as Albendazole,
Mebendazole, and Praziquantel
are given to reduce THIS
infection?

What is Worm infection / Helminthic infections?

Mass deworming is not advised
for children below THIS age

What is 1 year?

The WHO recommends that
THIS high-risk group receive a
weekly iron-folic acid
supplement to prevent anemia

What is Adolescent girls?

THIS west African country is on target to meet 4 of the 5 World Health Assembly 2025 targets:

- under -5 stunting (by 40%)
- under -5 wasting (<5%)
- under -5 overweight (no increase)
- exclusive breastfeeding (>50%)

BUT not

- anemia in women of reproductive age (by 50%)

What is Ghana?

THIS national level survey done every 5 years in over 90 countries report on national and sub-national prevalence of anemia

What is Demographic and Health Surveys (DHS)?

Field teams all over the world are
using THIS device to assess
hemoglobin concentration

What is Hemocue?

Concentration of hemoglobin
below THIS level in g/dL are
used for diagnosing anemia in
pregnant women

What is 11 g/dL?

Diagnosis of malaria can be done
by examining THIS under a
microscope

What is a thick or thin Blood smear?

THIS kind of anemia results in red blood cells being crescent shaped and it helps protect against malaria

What is Sickle cell anemia?

The logo features the word "FINAL" in large, red, 3D block letters with a blue and green gradient, set against a background of vertical lines. Below it, the word "JEOPARDY!" is written in white, bold, sans-serif capital letters on a blue rectangular background. The entire graphic is framed by a yellow border with a green-to-yellow gradient and a pointed bottom.

FINAL
JEOPARDY!

Use of THIS procedure at delivery will result in the baby receiving more iron
