

# Tension Points and Convergences

Finding solutions for challenges to designing and implementing integrated programming

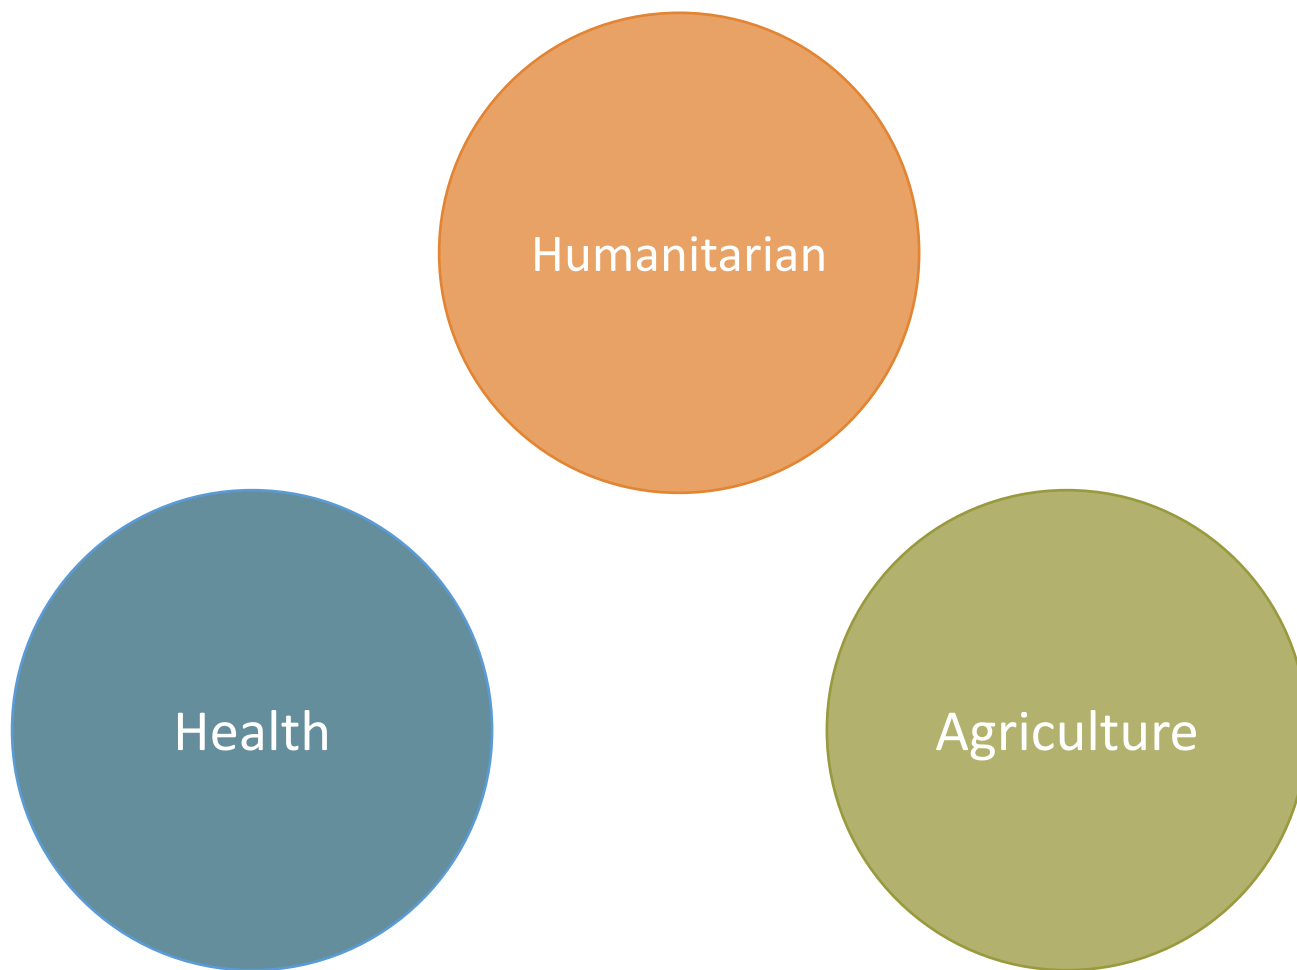

20 January 2016

# Multi-sectoral programming: Working across sectors

# Multi-sectoral programming

# Multi-sectoral programming: Tensions

# Multi-sectoral programming: Convergences

# Areas of convergence and tension

## Convergence

Where principles or practices are complementary and create synergy.

## Tension

Where principles or practices are at odds.

# Example: Areas of convergence and tension

## Convergence

Issue: Household resilience as a measure

## Tension

Issue: Definition of household resilience, and a timeline for measurement

# Example: Areas of convergence and tension

	<b>Convergence</b>	<b>Tension</b>
<b>Issue</b>	Household resilience as a measure	Definition of household resilience, and timeline for measurement
<b>Approach</b>	Co-locate programs to improve overall household resilience	Communicate across programs to share definitions, talk through program goals and approaches, identify location of interventions, map out timelines for implementation, and strategize measurement methods and timeframe
<b>Result</b>	Improved household resilience and increased efficiency in usage of funds	Improved household resilience and increased efficiency in usage of funds

# Finding solutions for challenges to designing and implementing integrated programming

# Facilitated table discussions: Areas of convergence and tension within Agriculture, Health, and Humanitarian sectors

## Convergences

Where principles or practices are complementary and create synergy.

## Tensions

Where principles or practices are at odds.

# Facilitated table discussions

- Within areas of convergence among these sectors, how were synergies developed?
- Within areas of tension, what are mitigation strategies?

# Next steps

With the group at your table, complete the worksheet through identifying:

- Three issues of tension or convergence;
- An associated approach for mitigation or synergy development; and
- The sectors of tension or convergence for each issue.

*Remember to note your table's number and facilitator.*

Tomorrow, we will report-back on group discussions. **Designate a member of your group to lead the report-out for your table.** Ensure that this individual is prepared to present tomorrow morning.

If you are a facilitator, ensure that Carolyn and Sally have a photocopy of your table's worksheet.

Table Number: \_\_\_\_\_ Facilitator name: \_\_\_\_\_

Sector	Tension or convergence	Issue <i>Further explain the tension or convergence</i>	Approaches for mitigating tensions or building upon convergences in programming
Agriculture Health Humanitarian	Tension Convergence		
Agriculture Health Humanitarian	Tension Convergence		
Agriculture Health Humanitarian	Tension Convergence		

# Thank you!
