EXERTING INFLUENCE: HIGHLIGHTS

Presented at the International Maternal and Child Health and Nutrition Conference in Colombo, Sri Lanka

Shared SPRING’s Farmer Nutrition School work at the Multi-sectoral Nutrition Asia Global Learning Evidence Exchange in Bangkok, Thailand

Participated in the Policies Against Hunger XII Conference in Berlin

Attained 60% coverage of target population of PLW in the two poorest wealth quintiles across our 40 working upazilas

Reached 126,255 PLW through our Farmer Nutrition School work

REACHING PEOPLE (Life of Project)

SPRING is reaching women and children under two in Bangladesh through the training of health workers and agriculture extension officers, and through farmer nutrition schools.

SPRING WORKS ACROSS SECTORS TO STRENGTHEN NUTRITION

Trained 126,255 women to improve household agriculture, hygiene, and nutrition through 6,421 Farmer Nutrition Schools

Completed a Farmer Nutrition School Toolkit with technical and session guides and flashcards in both English and Bangla to facilitate scale up and replication

Supported routine nutrition-related monitoring and supervision in 1,095 community clinics and 309 union health and family welfare centers

Distributed materials to 1,404 health facilities across 40 upazilas to reinforce messages promoting Essential Nutrition and Hygiene Actions

10,305,025 people contacted

22,327 people trained

21 institutions supported

5,477,101 children under 5 contacted
