SPRING IS WORKING TO STRENGTHEN THE NUTRITION SYSTEM IN MALI

Following facility-level ENA/EHA trainings, conducted supportive supervision visits using tablet computers that provide real time feedback to help promote improved staff practices and monitor the quality of nutritional services received by clients.

Initiated training for 500 leaders in nutrition-sensitive agriculture through 20 commune-level Farmer Nutrition Schools who in turn trained an additional 5,000 farmers to increase access to diverse and quality foods.

Completed cascade trainings on the Essential Nutrition Actions and Essential Hygiene Actions (ENA/EHA) for 375 facility-based health workers and community actors.

In collaboration with the regional government, triggered community-led total sanitation in 15 villages and established 1,557 tippy taps at the household level.

SPRING is working across 4 cercles, 20 communes, and 100 villages in Mali, reaching community leaders and health workers with nutrition-sensitive agriculture, ENA/EHA, and WASH interventions.

REACHING PEOPLE

75,291 contacts made
5,875 people trained
14 institutions supported
200 support groups and health facilities supported
1,557 tippy taps installed

EXERTING INFLUENCE: HIGHLIGHTS

- January: Established SPRING office in Sevare, Mopti
- May: Hosted homestead food production workshop
- June: Launched Farmer Nutrition Schools
- July: Completed ENA/EHA trainings
- September: Triggered 15 villages in CLTS
