Men Support Handwashing in Maradi

---

**00:02**-**00:05**: Hand washing

**00:26**-**00:30**: We are at the village of Dan Tourke, in the state of Guidan Roumdji

**00:31**-**00:36**: We are visiting two families to which we brought a message on hand washing.

**01:07**-**01:08**: Peace be upon you, Mariama

**01:09**-**01:10**: Peace be upon you too, Sahara

**01:11**-**01:13**: Good morning Mariama, Good morning Sahoura. How are you?

**01:15**-**01:17**: Why are your children healthier and smarter than mine, Mariama?

**01:21**-**01:25**: I have followed the advice of medical staff, even followed the advice on a 1000 Days, yet your children are healthier and smarter. Why is this, please?

**01:26**-**01:29**: Do you wash the hands of your children with water and soap before giving them food?

**01:32**-**01:35**: No, we are not aware of that.

**01:36**-**01:38**: I have good news for you, Sahoura.

**01:39**-**01:43**: Wash the hands of your children with clean water and soap before giving them food.

**01:44**-**01:47**: Wash your hands with clean water and soap after defecation.

**01:48**-**01:49**: To minimize the risk of infections among our children.

**01:49**-**02:01**: To protect our children against infections from contagious diseases in the world.

**02:02**-**02:06**: We should wash our hands and the hands of our children before eating and after eating.

**02:06**-**02:10**: We should wash our hands with clean water and soap before and after cooking food.

**02:11**-**02:15**: This is to minimize the risk of infection among our families, Sahoura.

**02:17**-**02:20**: Why wash our hands?

**02:21**-**02:29**: To minimize the risk of infections and protect our families from diseases like diarrhea.

**02:38**-**02:40**: Let us meet my husband for more information.

**02:40**-**02:42**: Peace be upon you, my husband. Peace be upon you too.
02:43-02:48- We come to you for more information to show Sahoura on how to wash our hands after defecation.

02:48-02:54- Follow me! I will show you how to wash your hands after using toilet.

03:09-03:12- In my position as a husband, I am responsible for hand washing.

03:13-03:17- I always provide water before the gallon gets empty.

03:18-03:21- I also provide soap for hand washing to my family.

03:23-03:27- I wash my hands and also ensure that all of my family members wash their hands, both children and grown-ups.

03:29 -03:32- In case I don’t have the means to buy soap, we use ashes.

03:36 – 03:40 - To wash hands, we do it like this so that the soap makes foam.

03:41-03:45 - Because soap can only make foam when hands are wet

03:46-03:50 - Wet your hands with water like this, you can see it is now wet.

03:51-03:55 - Then rub your hands with soap until foam forms.

04:00-04:04 - Then you do it like this, you do like this again.

05:41-05:45 - How to wash hands properly?

05:46-05:54 - Hands are washed with water from a tap, from a clean gallon or kettle and soap.

05:55-05:59 - You can re-wash your hands if needed.

06:01-06:05- You can also plant a tree near the hand washing station, as you can see here.

06:06- 06:12- The water flows to the tree and it will eventually grow and be useful in the future.

06:13-06:17- I will benefit from this tree in the future.

06:18-06:23- The water flows to the tree, it will provide us shade when it grows.

06:24-06:29- Sahoura, you hold the hands of your children like this and then wash.

08:02-08:06- Thank you for sharing this message with us.

08:07-08:12 - We will share this with others, starting with our own families.

08:20-08:23- Peace be upon you, peace be upon you too.

08:27-08:29- I was at Mariama’s house where I received good news.

08:30-08:33-That hands should be properly washed with water and soap after coming out of the toilet.

08:34-08:37- And wash the hands of our children properly.
08:38-08:42- Wash the hands of our children before giving them food to eat in order to minimize the risk of infections.

08:43-08:49 - I request you to provide me with all of what I need for hand washing, such as soap and clean water to protect our family from infections.

08:50-08:55- I am satisfied with this information. For handwashing station, water and soap, I will take care of that.

08:55-08:58- We will do it as part of our day to day lives. Handwashing is like a religion.

09:29-09:32- When to wash hands?

09:33-09:34- Hands should be washed:

09:34-09:35- before cooking food,

09:36-09:38- before eating food,

09:39-09:42- before feeding a baby,

09:43-09:47- after defecation, and

09:48-09:52- after washing a baby’s bottom.

09:55-09:58- We will do it as part of our day to day lives. Handwashing is like a religion.

09:58-10:05- ...I will also provide my wife with another place to wash hands before and after cooking.

10:00-10:05- …I will also provide my wife with another place to wash hands before and after cooking.

12:10-12:13- This is a soap container to keep soap after washing hands.

12:14-12:18- The soap container has small holes in the bottom so that water can drain out.

12:19-12:22- After washing my hands with the soap, I put the soap back inside the container, to prevent animals from eating it.

12:23-12:28- I am satisfied with this initiative on hand washing using water and soap

12:29-12:33- We will continue to do this, me and my family.

12:34-13:38- We will always wash our hands after coming out of the toilet.

13:38-13:42- Before preparing food we will wash our hands with water and soap.

13:43-12:47 - To avoid infections, for me and my family.

12:48-12:51- This will protect our family from infections.
