Children love gifts. Your child has been recently born. The best gift you as a Mom can give your child is your breast milk. The best gift you as a Dad can give your child is to support Mom to give only breast milk for the first 6 months. With breast milk, your child receives all the energy, nutrients, and vitamins she needs. Breast milk also protects your child from disease. Your child needs nothing except your milk for her first six months – not even water! According to recommendation of the Ministry of Health, exclusive breastfeeding from first minutes of life up to six months is the best nutrition to ensure your child’s healthy growth and physical and mental development. Make a precious gift for your child—a chance—not even water! Make a precious gift for your child—a chance—a healthy today and a bright future tomorrow!
